## Compliant & Technology-Driven Contract Staffing Solutions

Our contract staffing services are designed to support organisations with a reliable, flexible, and fully compliant workforce. As a licensed contractor under the Contract Labour (Regulation & Abolition) Act (CLRA), we ensure lawful deployment of contract manpower for all eligible client establishments while strictly adhering to statutory requirements.

We manage the complete lifecycle of contract employees including sourcing, recruitment, onboarding, payroll processing, and statutory compliance. Our dedicated functional teams for recruitment, compliance, payroll, and accounts work together to ensure smooth workforce operations with minimal administrative burden on our clients.

- CLRA licensed for eligible client establishments.
- Dedicated teams for sourcing, compliance, payroll & accounting.
- End-to-end contract workforce management.
- Cost-effective & scalable manpower solutions.

We operate through specialised internal teams for manpower sourcing, statutory compliance, payroll processing, and financial accounting. This structured approach enables seamless coordination between workforce deployment, wage processing, statutory filings, and reporting, ensuring uninterrupted operations for our clients. Our in-house developed payroll and workforce management software provides secure company login and employee self-service (ESS) portals. Through this platform, clients can access workforce reports, attendance data, and salary information, while employees can download payslips, submit requests, and view statutory details. This technology-driven approach ensures transparency, accuracy, and efficiency across the entire contract staffing process. By combining legal compliance, operational expertise, and best-in-class payroll technology, we deliver contract staffing solutions that help organisations maintain workforce flexibility, control costs, and achieve smooth day-to-day manpower operations with complete peace of mind.
